### **EXECUTIVE SECRETARY REPORT**

- This morning, May 27, 2015 at 8:00 AM, EPA and Corp of Engineers issued the final Waters of the U.S. Rule. There were over a million comments received and it will change which waters are subject to federal jurisdiction. In Utah, the Sevier River Basin will be deemed non-jurisdictional. Waters of the U.S. require 404 permits through the Corps and NPDES permits issued by DWR for pollution discharges. The State will likely need to develop a state surface water permit to protect those non-jurisdictional waters.
- On May 20, 2015 a presentation was made to the Natural Resources and Agriculture Environment Interim Committee:
  - Infrastructure- Wastewater infrastructures will be needed to accommodate future growth
  - More Stringent Standards- Increased growth and depleted flows in our rivers and streams will result in higher levels of treatment being needed
  - New and Emerging Water Quality Standards
    - A more stringent ammonia standard will be required in 2017
    - Nutrient reduction limits for POTWs and water quality standards for in our lakes and streams are forth coming
  - Spills
- The Utah Tax Review Commission meets on May 28, 2015 to consider changes to the allocation of 1/16% of the sales tax revenues to five statutory funding programs for water, wastewater, conservation and transportation infrastructures

Willard City will make its bond payment for 2015, but without refinancing will be unable to make the bond payment for 2016. The new bond would be for \$10,740,000 for 30 years at 0% with the referenced graduated repayment schedule and early principal repayment clause and the following special condition: Willard City agrees to participate annually in the Municipal Wastewater Planning Program (MWPP).

### **OTHER BUSINESS**

**Logan City Update:** Ms. Nelson updated the Board on the Logan City project. The project was initially presented to the Board on January 22, 2014 when the Board authorized a \$70,000,000 loan at 0.75% interest to replace Logan City's discharging lagoons and construct a new 18-mgd wastewater treatment plant. February 15, 2014 the mayors from six surrounding communities (Nibley, Hyde Park, North Logan, Smithfield, Providence, & River Heights) submitted a letter to the Board expressing concerns about the project. The Board extended the terms of its loan authorization project until November 2014, again to December 2014 and again to April 2015. As of the May Board meeting an agreement between the six cities and Logan City has not been reached. The Board stated final staff recommendations will need to be presented at the June 2015 Board meeting.
